2008 Preface

The first Pierre Huber Prize 2007 which was granted at the Hangzhou New Media Art School was an important millstone to all artists who participated. Their contribution was significant to rise the high standard of this award.

The Pierre Huber Prize gives a new challenge to the school, providing incentive, joy and competition, for students and teachers. With this award we encourage the public get to know the artists works and their activities in the school.

The second edition of the Pierre Huber Prize is being presented in Beijing and shows a new generation of artists with passion. With our support we can help them to achieve their goals as artists.

I am very proud to share this nomination with the people of China, who I love and respect very much.

I would like to thank the heads of the school and the professors for their great collaboration. My warmest thanks also go to Zhang Peili and Zhou Tiehai, who worked with me on this project since the very beginning. Without them it would never have seen the light of the day. Finally I wish to thank the managers of the T Space Gallery for their warm welcome and willingness to host this magnificent exhibition.
